Interdisciplinary Course in Performing Arts Technology + Computer Science & Engineering

Performance Systems: Mobile Phones as Musical Instruments

Winter 2011: PAT 461/511/561 EECS 498/598
Instructor: Georg Essl

In this course we will design our own mobile phone musical instruments, write our very own pieces for this new genre, and develop mobile music performance practice in a unique blend of music performance and engineering.

The course is designed to be accessible for both Music and Engineering majors.
